HIGH PERFORMANCE ROOFING WITH A FOCUS ON RESTORATION

Tremco Roofing's **"Keeping good roofs good"** has never been more true than it is today, with a **strong focus on restoration systems and proactive roof management programs**. Designed to reduce land-fill waste while delivering reliable, long-lasting performance, Tremco restoration systems are leading the industry in advanced roofing technology. And because affordability is integral to all sustainability measures, Tremco restoration systems are engineered for fast and easy installation.

The Power Couple: Tremco Roofing and WTI

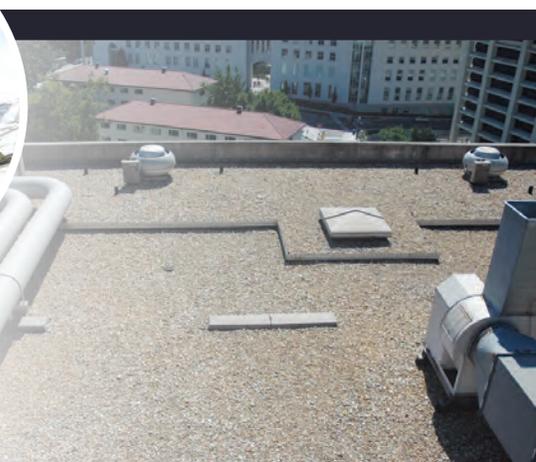

As a manufacturer of roofing materials since 1928, Tremco Roofing and Building Maintenance offers roofing systems for every environment, and the technical know-how to solve our customers' biggest problems. And because our **affiliated construction services company WTI*** offers turnkey maintenance, repair, roof management and general contracting services for the entire building envelope, we have the unique ability to provide a turnkey solution to maximize building performance and our customers' return on investment.

Our S.M.A.R.T. Program (Special Market Access with Roofing Technologies) provides opportunities for the industry's best small business, economically disadvantaged and woman-owned contractors to meet the needs of public agencies and private organizations with the right combination of procurement ease, technical skills, and construction capabilities.

Tremco Roofing and NBC offer proven turnkey roofing and building envelope solutions for every environment.

- Diagnostics
- Sustainable roof cleaning
- Roof system repair
- Preventive maintenance
- Roof restoration coatings
- Roof replacement
- New roof construction
- Roof management programs
- Building envelope weatherization
- Emergency storm response
- Disaster recovery services

The Tremco
and NBC Team

As an **EDWOSB business** founded in 1986, NBC knows how to meet the unique challenges inherent to public agency construction projects. **Expertise in both roofing and weatherproofing means NBC takes a holistic approach to complex problem-solving**, with a record of performance across myriad environments. And because NBC's crew has been with the company for years — several project managers and superintendents have been employed for more than two decades — NBC brings a personal commitment to projects that is essential to a self-performing contractor.

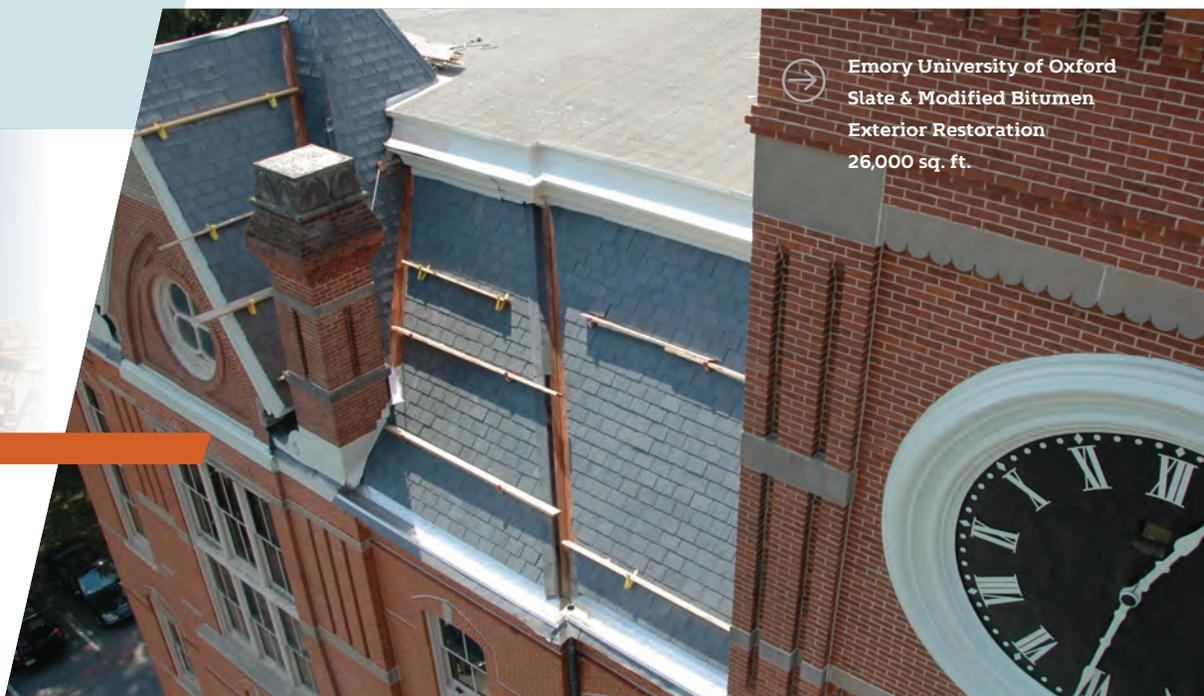

The NBC Advantage. Proven Performance.

As a **Tremco Enterprise Contractor**, **NBC** has been qualified as one of the industry's **best and most forward thinking contractors**. New product innovations, installation techniques and business management skills are the hallmarks of Tremco's ongoing contractor training program. Which means that NBC continually advances the skills and expertise of its management and crew to ensure customers benefit from its association with Tremco Roofing.

NBC capabilities include multi-disciplinary historic building restoration and the ability to work with sophisticated architectural details, often within challenging environments. Completing projects of all types and sizes on time and within budget is a priority, as evident in a past performance record that speaks for itself.

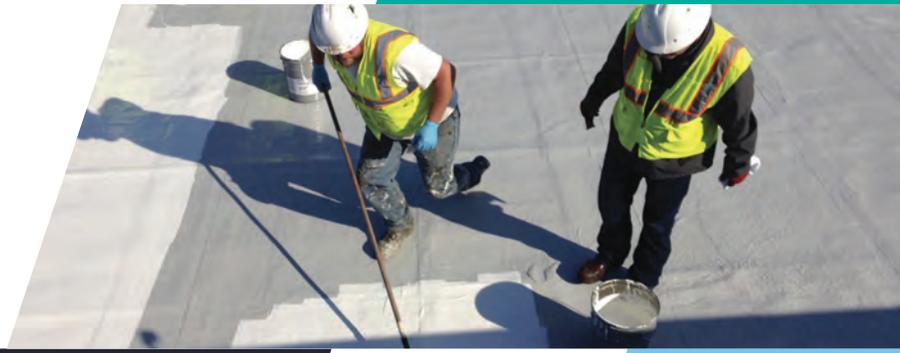

NBC's Dynamic Solutions Solve Complex Roofing and Weatherproofing Problems.

The company's commitment to safety is another priority. NBC's "No Accidents" mission is reflected in the company's safety training program that covers every aspect of the operation, including site specific safety plans and drug testing protocols.
